

**Retraction**

## **Retraction: Successful management of massive intraoperative pulmonary fat embolism with percutaneous cardiopulmonary support**

The article titled, “Successful management of massive intraoperative pulmonary fat embolism with percutaneous cardiopulmonary support”, published in pages 136-139, issue 3, vol.12 of Indian Journal of Critical Care Medicine<sup>[1]</sup> is being retracted. The article has found to contain overlapping text sections from a previously published article titled, “Use of percutaneous cardiopulmonary support in catastrophic massive pulmonary fat embolism”, published in pages 213-215, issue 2, vol.96 of British Journal of Anaesthesia<sup>[2]</sup>. Thus on the grounds of duplicity of the text, the concerned article is being retracted.
