

RETRACTION NOTICE

Retraction of Prediction of Weaning Outcome from Mechanical Ventilation Using Ultrasound Assessment of Parasternal Intercostal Muscle Thickness

Indian Journal of Critical Care Medicine (2025): 10.5005/jp-journals-10071-24921

The authors have withdrawn the article published in the *Indian Journal of Critical Care Medicine* with details as follows: Ramaswamy A, Kumar R, Arul M, Ish P, Madan M, Gupta NK, Gupta N. Prediction of Weaning Outcome from Mechanical Ventilation Using Ultrasound Assessment of Parasternal Intercostal Muscle Thickness, *Indian J Crit Care Med* 2023;27(10):704–708. DOI: 10.5005/jp-journals-10071-24548.

Following further scrutiny of the article and other facts brought to the attention of the IJCCM, I have decided to change the reason for the retraction.

This article is withdrawn after it was found that the data was completely plagiarized (in toto) from the work of another researcher.
